- Evens out skin tone.
- Brightens to recapture youthful luminosity.
- Perfects and illuminates the complexion.

SKIN REDNESS. Covers to provide visible relief to and minimize the appearance of skin redness.

BLEMISHES. Instantly conceals the appearance of blemishes. It also helps fade the look of marks from past breakouts. Non-comedogenic and oil-free. Soothes and nourishes acne-prone skin.

PROTECTION FROM UVA/UVB DAMAGE

This transfer-resistant formula helps protect your skin from sunburn and long-term damage with broad-spectrum SPF 15 sunscreen. This formula also is photostable, critical for providing adequate sun protection.

DEFENSE AGAINST ENVIRONMENTAL STRESSORS

The beauty of minerals

Mary Kay® Mineral Eye Colors and Mary Kay® Mineral Cheek Colors are actually good for your skin.

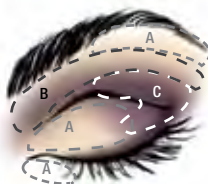

They contain vitamins A, C and E to help protect skin against wrinkle-causing free radicals.

(A) Highlighter:

The lightest shade used in an eye look. It enhances eye features such as the brow bone and inner corner of the eye.

(B) Midtone:

The medium shade used in an eye look. For a day look, this shade is usually neutral.

(C) Accent:

The darkest shade used in an eye look. It adds a pop of color and depth to the eye.

It's what you need to gently remove eye make-up without the hassle.
